posts and the Justerbor-Luckenwalde training area, which began in late June

1951.

The trains

probably carried AAA units, since they were bound for Neubukow.

The troop trains

carried leadquarters engineer units of the Third Ods Fecz Army which returned to their permanent quarters in the Schumka Kaserne, Sperenberg, from where they had left in late April 1951 for field exercises on the Elbe River in the Littenberg area.
